

LEDSTAR ULTIMATE MIDI SPOTLIGHT TM66 REPORT

ASSESSMENT

CIBSE TM66 CEAM
Creating a Circular Economy in the Lighting Industry

PRODUCT CODE AND DESCRIPTION

453200000-XXX-XX-X
LEDStar Ultimate Midi CREE CXB Spotlight, Fixed 3m Cable, High CRI LED

RESULTS

CATEGORY	POINTS SCORED	MAX POINTS POSSIBLE	ASSESSMENT
Product Design	100	134	3.0
Manufacturing	23.7	46.5	2
Materials	12	24	2
Ecosystem	31	43	2.9
OVERALL PERFORMANCE	166.7	247.5	2.5

HOW TO ANALYSE THE SCORE	
0 to 0.5	Very poor circular economy performance
0.5 to 1.5	Some circular economy functionality
1.5 to 2.5	Definite/substantial progress to circularity
2.5 to 4	Excellent Circularity

RESULTS EXPLAINED

Technical Memorandum (TM) 66 describes a Circular Economy's main aims, how it can be achieved and what its practice will mean to the different branches of our industry like specifiers, manufacturers, contractors and Facilities Managers.

The Circular Economy Assessment Method for Manufacturing (CEAM-Make)'s list of 72 searching questions, the majority of which ask for back-up evidence, is split into four sections:

Product Design: Covering topics such as design for long life and repair
Materials: Usage of recyclable materials rather than virgin
Manufacturing: Additive and subtractive techniques and localisation
Ecosystem: Repair or upgrade services to complement circular economy design

The outcome of the assessment is a single figure rating by which product comparisons can be made. A TM66 score demonstrates a product's performance in the context of a Circular Economy

If any specific piece of back-up evidence is required, please contact sales@lightprojects.co.uk.
