So why work with us?

- We ReSPECt the spec. *Always*. The company is fully respectful of all designers' specifications!
- We are a well-established company with over 40 years of care and support for the lighting specification industry.
- All our LED manufactured fittings are designed to be serviced and updated, for years to come, with the latest LED technology. We use the agreed industry platforms
- The companies have always been there to support the designers to realise their vision.
- We're proud of the strong working relationships we have with so many design studios. We are always supportive of your project needs, one of them being discretion.
- The new Infinity projector/track range, once again, uniquely focusses (using one hand), through 360 by 360 degrees of adjustment/movement. So always maintaining H&S.
- Our team are ready to collaborate with you, ready to make a difference and ready to win, together.
- Our talented team are there to support in any way possible, from your concept to you receiving a project award
